**Manufactured from fiberglass reinforced vinylester resin.
Made to withstand sun, cold, water, salt and heat exposure.**

Rogue Strategic Manufacturing, LLC or RSM, is a minority-owned, family, business based in Concord, North Carolina. Founded by Art Henson, the company started as a partnership to provide fiberglass shields for one of the largest bridge utility construction companies in the southeast.

Through the use of custom-designed machines, RSM can turn around orders quickly to keep your project moving - all with great customer service and a competitive price.

RSM has provided thousands of shields for natural gas pipeline projects across the country and continues to seek out new opportunities.

Darius, Ariana, Marcus and Art Henson
