

Standard FRP Ware Pad, Saddle, Shield Circumference

STANDARDS:

SIZES: [2" 2.6 ID] [4" 4.7 ID] [6" 6.8 ID] [8" 8.8 ID] [10" 11 ID] [12" 13 ID] [14" 14 ID] [16" 16 ID]

LENGTHS: 6" 9" 12" 18" **THICKNESS:** .09" - .125"

Custom sizes and lengths are available. Wear pad thickness: .25" or 6mm

- Manufactured from fiberglass reinforced vinylester resin.
- Made to withstand sun, cold, water, salt and heat exposure.

SHIELDS

- Precision made to fasten securely to tape-wrapped pipe.
- 240 degree shields are flexible enough to install easily.
- Sharp edges are rounded to protect the installer's hands.
- Rounded corners to prevent snagging tape during installation

WARE PADS & SADDLES

- Custom cut in smaller diameters.
- Inside surfaces are abraded to allow for a more adhesive surface for glues and epoxies.
- Ware pads can be ordered in thicknesses of .125" to .25".

ABOUT US

Rogue Strategic Manufacturing, LLC or RSM, is a minority-owned, family business based in Concord, North Carolina.

Founded by Art Henson, the company started as a partnership to provide fiberglass shields for one of the largest bridge utility construction companies in the southeast.

Through the use of custom-designed machines, RSM can turn around orders quickly to keep your project moving - all with great customer service and a competitive price.

RSM has provided thousands of shields for natural gas pipeline projects across the country and continues to seek out new opportunities.
